#### A Spleudid Chance.

Everybody who is weak, delicate or sickly wants to get well. Dr. Greene, of 35 West 14th St., New York City, makes a specialty of treating patients through letter correspondence. The wisest thing all suffering people can do is to write the Doctor, stating just how they feet, mentioning every symptom of which they complain, and he will answer the letter, explaining each symptom and describing the case so thoroughly that patients understand their complaint as well as though they had talked with the Doctor. He makes his explanations so clear that they cannot help but understand just what ails them, and he tells exactly what to do to get well. It saves a journey to the city and doctor's fees, and costs nothing. Dr Greene is the most successful specialist in curing nervous and chronic diseases. He is the discoverer of that wonderful medicine, Dr. Greene's Nervura blood and nerve remedy. Thousands are being cured through his perfect system of letter correspondence. It has been proved successful.

Who will be the next to step from smong the ranks of the bachelors and maids, to join hands and embark as one on the great voyage of life? The last to do this act in our vicinity were Oscar Johnson, son of Robert Johnson, and Miss Lizzie McNicol, daughter of Robert McNicol, both of this township. The wedding took place on the 28th ult There were but few who knew of the wedding until it was over, as the couple got into a buggy and drove to Leesburg. where they were united in marriage by Rev. Sellars. They then returned to Mr. McNicol's, where a sumptuous supper was served. The reception was given at Mr. Johnson's on the day following. The happy pair will enter at once upon the sterner duties of life, and go to housekeeping on a farm near Centerfield.

The most destructive fire ever known to our place occurred a few days ago, when the alarm of fire was heard about four o'clock, on the morning of the 25th ult. The fire proved to be at the residence of Geo. Holmes' nest and comtortatele little dwelling which he had recently finished. The fire originated in the kitchen, between the roof and cening, and had gained such headway before being discovered that nothing could be done to save it, and even before the neighbors could get there the building was almost entirely consumed. The family, consisting principally of small children, escaped without injury. A few bed clothes, one bedstead, cook stove, and organ, were all that was saved. All the wearing apparal of the family was lost. But, during the fire, some of the energetic neighbors were there and it was not long after the fire was over before some four or five persons were started in different directions with subscribtion papers, and on summing up their day's work it was found that they had subscriptions to the amount of nearly three hundred dollars. Mr. Holmes and family, with what goods he had left, was soon furnished a house by Frank West, and it was not many days before the good people had the house comfortably furnished and the family clothed, and provisions enough to do until Mr. Holmes could earn something. This shows the brotherly love and feeling that exists in Penn township.
